

A robot must protect its own existence as long as such protection does not conflict with the First or Second Law.

The true sign of intelligence is not knowledge but imagination.

For some reason, if a strag discovers that a hitch hiker has his towel with him, he will automatically assume that he is also in possession of a toothbrush, soap, etc.

A robot must obey the orders given to it by human beings, except where such orders would conflict with the First Law.

Always two there are, a master and an apprentice.

You can't make a half sandwich. If it's not half of a whole sandwich, it's just a small sandwich.

When Simon says that everyone jump, everyone jump.

There are 10 types of people in the world: Those who understand binary, and those who don't.

A robot must protect its own existence as long as such protection does not conflict with the First or Second Law.

A question that sometimes drives me hazy: am I or are the others crazy?

You have to learn the rules of the game. And then you have to play better than anyone else.

No matter how hard he tried, my opinion didn't change.

Look behind you, a Three-Headed Monkey!

To be or not to be, that is the question.

A neutron walks into a bar and asks how much for a drink. The bartender replies "for you, no charge".

The students always start their projects the day before the deadline. Teachers don't like when it happens.

Do or do not... there is no try.

A question that sometimes drives me hazy: am I or are the others crazy?

You have to learn the rules of the game. And then you have to play better than anyone else.

He is caught between the devil and the deep blue sea.

A robot must obey the orders given to it by human beings, except where such orders would conflict with the First Law.

A question that sometimes drives me hazy: am I or are the others crazy?

Insanity: doing the same thing over and over again and expecting different results.

Topologists can't tell a coffee cup from a doughnut.

Turing Test Extra Credit: Convince the examiner that he's a computer.

Any man who can drive safely while kissing a pretty girl is simply not giving the kiss the attention it deserves.

When Simon says that everyone jump, everyone jump.

Topologists can't tell a coffee cup from a doughnut.

Science Tip: Log scales are for quitters who can't find enough paper to make their point properly.

There are 10 types of people in the world: Those who understand binary, and those who don't.

You call that a glow stick? \*Pulls out a Lightsaber\* This is a glow stick!

Traveling through hyperspace ain't like dusting crops, boy.

When you play the game of thrones, you win or you die.

Swordfighting is a little like making love. It's not always what you do, but what you say.

Insanity: doing the same thing over and over again and expecting different results.

There are 10 types of people in the world: Those who understand binary, and those who don't.

A robot may not harm humanity, or, by inaction, allow humanity to come to harm.

You can't make a half sandwich. If it's not half of a whole sandwich, it's just a small sandwich.

Insanity: doing the same thing over and over again and expecting different results.

Swordfighting is a little like making love. It's not always what you do, but what you say.

When you play the game of thrones, you win or you die.

Swordfighting is a little like making love. It's not always what you do, but what you say.

Penny, I told you if you don't put him in his crate at night, he just runs around the apartment.

Do or do not... there is no try.

When you play the game of thrones, you win or you die.

Boy, I wish I had as little on my mind as you do. No offense intended, of course.

When Simon says that everyone jump, everyone jump.

You can't make a half sandwich. If it's not half of a whole sandwich, it's just a small sandwich.

Turing Test Extra Credit: Convince the examiner that he's a computer.

The students always start their projects the day before the deadline. Teachers don't like when it happens.

When you play the game of thrones, you win or you die.

A robot may not injure a human being or, through inaction, allow a human being to come to harm.

Only two things are infinite, the universe and human stupidity, and I'm not sure about the former.

Penny, I told you if you don't put him in his crate at night, he just runs around the apartment.

When Simon says that everyone jump, everyone jump.

A robot may not injure a human being or, through inaction, allow a human being to come to harm.

Boy, I wish I had as little on my mind as you do. No offense intended, of course.

A student hesitates how to draw a very strange sequence diagram, the teacher may feel a little guilty about that.

The true sign of intelligence is not knowledge but imagination.

A robot must obey the orders given to it by human beings, except where such orders would conflict with the First Law.

It is our choices, that show what we truly are, far more than our abilities.

A neutron walks into a bar and asks how much for a drink. The bartender replies "for you, no charge".

Do or do not... there is no try.

Turing Test Extra Credit: Convince the examiner that he's a computer.

Scissors cuts paper, paper covers rock, rock crushes lizard, lizard poisons Spock, [...], Spock vaporizes rock, and as it always has, rock crushes scissors.

A student draws a sequence diagram and another understands what it means, saying it aloud.

A question that sometimes drives me hazy: am I or are the others crazy?

A robot must protect its own existence as long as such protection does not conflict with the First or Second Law.

To be or not to be, that is the question.

When Simon says that everyone jump, everyone jump.

Buffalo buffalo Buffalo buffalo buffalo buffalo Buffalo buffalo.

A robot may not harm humanity, or, by inaction, allow humanity to come to harm.

The true sign of intelligence is not knowledge but imagination.

You have to learn the rules of the game. And then you have to play better than anyone else.

You call that a glow stick?  
\*Pulls out a Lightsaber\* This is a glow stick!

Turing Test Extra Credit:  
Convince the examiner that he's a computer.

Better the devil you know than the devil you don't.

A student draws a sequence diagram and another understands what it means, saying it aloud.

You have to learn the rules of the game. And then you have to play better than anyone else.

A robot may not harm humanity, or, by inaction, allow humanity to come to harm.

A robot must obey the orders given to it by human beings, except where such orders would conflict with the First Law.

The true sign of intelligence is not knowledge but imagination.

Buffalo buffalo Buffalo buffalo buffalo Buffalo buffalo.

A robot must protect its own existence as long as such protection does not conflict with the First or Second Law.

A robot must protect its own existence as long as such protection does not conflict with the First or Second Law.

I am a nobody. Nobody is perfect. Therefore, I am perfect.

Insanity: doing the same thing over and over again and expecting different results.

The difference between stupidity and genius is that genius has its limits.

A robot must protect its own existence as long as such protection does not conflict with the First or Second Law.

Traveling through hyperspace ain't like dusting crops, boy.

You have to learn the rules of the game. And then you have to play better than anyone else.

A robot may not injure a human being or, through inaction, allow a human being to come to harm.

A person who never made a mistake never tried anything new.

It is our choices, that show what we truly are, far more than our abilities.

Great spirits have always encountered violent opposition from mediocre minds.

A robot must obey the orders given to it by human beings, except where such orders would conflict with the First Law.

😊 When you play the game of thrones, you win or you die.

☐ Swordfighting is a little like making love. It's not always what you do, but what you say.

→ When Simon says that everyone jump, everyone jump.

? You have to learn the rules of the game. And then you have to play better than anyone else.

😊 A robot may not injure a human being or, through inaction, allow a human being to come to harm.

☐ It is our choices, that show what we truly are, far more than our abilities.

→ In a large bowl, cream together the butter, brown sugar, and white sugar. Beat in the instant pudding mix until blended.

? I am a nobody. Nobody is perfect. Therefore, I am perfect.

😊 The Emperor needs a Death Star to blow up a planet.

☐ Topologists can't tell a coffee cup from a doughnut.

→ Insanity: doing the same thing over and over again and expecting different results.

? Fear is the path to the dark side. Fear leads to anger. Anger leads to hate. Hate leads to suffering.

😊 A robot must obey the orders given to it by human beings, except where such orders would conflict with the First Law.

☐ Only two things are infinite, the universe and human stupidity, and I'm not sure about the former.

→ Fear is the path to the dark side. Fear leads to anger. Anger leads to hate. Hate leads to suffering.

? When you play the game of thrones, you win or you die.

😊 Turing Test Extra Credit: Convince the examiner that he's a computer.

☐ Only two things are infinite, the universe and human stupidity, and I'm not sure about the former.

→ A neutron walks into a bar and asks how much for a drink. The bartender replies "for you, no charge".
